

Price List

Straw bales and Blow-In Straw Insulation

Valid from 1 March 2026

Premium construction straw bales

Our premium organic construction straw bales are produced year-round and can be manufactured according to the customer's desired format. The straw is cleaned to remove residual grain and fine particles, palletized, and certified according to ETA-10/0032.

Bale length can be freely selected between 50 cm and 120 cm.
Lengths of up to 250 cm are also available upon request.

Special sizes:

26 x 42 cm

32 x 42 cm

(Bale height x bale width)

Standard size:

36 x 49 cm

(Bale height x bale width)

Price: **91 €** per m³ net, ex works

Price: **84 €** per m³ net, ex works

Eco organic construction straw bales

Alternatively, we supply certified organic straw that is pressed directly in the field during harvest. These small bales are produced at the time of harvesting, which may result in natural variations in bale length.

Available bale format:

37 x 49 x 85 cm

Bale height x bale width x bale length

Price: **68 €** per m³

Price per bale: 10.48 €

Blown-In Straw insulation

Specially processed wheat straw for blown-in insulation, certified according to ETA-25/0052.

Package weight: 20 kg

Package size: 35 x 40 x 80 cm

Pallet configuration

360 kg per EURO pallet

420 kg per EURO pallet

Available from certified organic farming upon request.

Distribution throughout Austria is handled by **Vinzenz Harrer GmbH**.

For partners and customers of **Isocell GmbH**, the blown-in straw is available throughout Europe under the brand name **Plantacell**.

All prices are exclusive of statutory VAT (10% for construction straw) and apply ex works A-3331 Abetzdorf. Further information: www.sonnenklee.at/constructionstraw
